

The Recreator 3D - Quick Start Reassembly from Out of Box

Please See the Build Video at the following Steps to Rebuild your Recreator 3D from Shipping.

The Recreator 3D - How To - Build Notes - RECYCLE - PET#1 - Plastic Bottle Pultrusion Unit

Reattach the Cutter Plate on the right side:
<https://youtu.be/nMYunEgUQ8s?t=688>

Reattach the Dual Motor MK3Pro Spooler to the left side, don't over tighten the spool rod nuts as it can cause binding:
<https://youtu.be/nMYunEgUQ8s?t=813>

See the Quick Start Guide to easily get started.
See the Operations Manual for Further Details.
All files and notes needed supplied on the SD Card.
